2018-08 -
2022-06

Fullstack Engineer Javascript

OPG, US

- Developed Video editor with revision system, integrated Salesforce, and supported multiple cloud providers like box.com and AWS S3
- Built high-volume serverless image uploader using nodejs and react
- Upgrade and maintain large scale serverless image processing system using python and nodejs
- Application monitoring systems and dashboards using cloudwatch and security using cloudtrail
- Built custom archival solutions on top of multiple storage providers.

Skills

JavaScript / Typescript

NodeJS

NestJs / NextJs / Express

ReactJS

Testing

TDD / Jest / Supertest

APIS

REST / GRPC / GraphQL

Microservices

Docker / Lambda /

Serverless Framework /

Kubernetes / SQS / SNS /

Kafka

Cloud

AWS / GCP / Azure

Databases

SQL/MySQL/Postgresql

NoSQL(MongoDB),

DynamoDB

TypeORM / Mongoose

Package Managers

yarn / npm / webpack

make

Version Control

2017-07 -
2018-07

Backend Engineer Nodejs

cloudranger, Ireland

- Added features for serverless app connected through event driven system SNS/SQS
- Fully automated CICD pipelines using AWS services codebuild, codepipeline and cloudformation

2017-05 -
2017-07

Full Stack PHP Developer

Pakipreneurs, ISLAMABAD

- Developed PHP APIs in Laravel and Codeigniter
- Maintained their documentation using swagger
- Built Single Page Apps using Reactjs and Angular
- Increased productivity many fold by using linters and automated webpack tasks

2015-06 -
2015-09

Volunteer

Mishkat Trust, Rawalpindi

- Performed Server maintenance tasks
- Built, Debian packaging PPAs, file based CMS in Codeigniter

git / github / bitbucket

Tools

curl / vscode / sublime
zsh / i3 WM

Operating Systems

Linux / Mac / Windows

Security

OWASP Top 10 / Pentesting

nmap / Burp suite

Other Languages and Frameworks

PHP / Python

Laravel / Codeigniter /
Electron
